**Dr. and Mrs. Vines.**

Each organization of the First Baptist church held its meetings this week with a deep sense of sadness and regret because our pastor and his wife are so soon to leave us; and each coveted a parting message and blessing. Both Dr. and Mrs. Vines have meant to all departments of the church work and by their interest and active service every organization has felt the throbbing power of their lives. Each society has grown and is able to do greater and more efficient work because of this intimate association for the past seven years. We can but lift our hearts to God in gratitude for the ideals they have held up before us, for the words of encouragement they have given, and for the service they have so gladly rendered. As they go from us we pray that God will bless and keep them and that they may mean as much to all the organizations of the church to which they go as they have to us.

Mr. Murray is a member of one of the oldest and most prominent families in the state, and has a host of relatives and friends who will be greatly interested in his marriage.

With a coterie of lovely attendants, the wedding of Miss Manie Adams and Mr. Edward Bobo Murray will be beautifully solemnized Thursday evening, June 17th, at the home of the bride's parents, Mr. and Mrs. B. T. Adams, on College street. Dr. E. C. Dargan performing the ceremony at 9 o'clock.

There will be no maid of honor, but Mrs. Joseph Johnston Reed of Knoxville, sister of Mr. Murray, will be matron of honor, and Miss Harriet Adams and Miss Mary Taylor will be the dainty little ribbon-bearers.

Mr. Terry Adams will be the groom's best man and Mr. Willingham Tift with Mr. Dudley Woodward will usher.

Miss Adams and Mr. Murray are two of Macon's most popular young people and their many friends are delighted that after a wedding trip to San Francisco, they will make their home in Macon, being at home after the middle of September with Mr. and Mrs. B. T. Adams.

It is an interesting fact that in the four weddings announced today, all the brides and grooms are members of Macon's societies, who will make their homes in Macon after the wedding, much to the delight of hosts of friends.

**"Color Music" Introduced at New York Concert.**

During a recent rendition of the Russian composer Scriabine's "Prometheus," which is described as a futuristic tonal poem, by an orchestra in Carnegie Hall at New York, a "color organ" was employed to utilize the author's chromatic scale, with the orchestration. Various color hues and tints merging and blending with each other appeared in a maze of diaphanous gauze, forming a screen on the stage before the audience. These animated colors appeared simultaneously with the orchestral music, varying in intensity, shade and movement in harmony with the combinations and inflections of tones rising from the pit.  
The "organ" on which this so-called color music was played is shown in an illustration appearing in the June Popular Mechanics Magazine.

**An Electrically Operated Swing Bridge.**

What is said to be the first swing bridge ever built in which the opening and closing of the bridge as well as the entire work of controlling and safeguarding vehicular and water-borne traffic is performed electrically has recently been placed in service over the Forth and Clyde Canal between Glasgow and Clydebank, Scotland. This is a single swing span carrying a double-track street railway with the usual roadway and sidewalks. Every movement in the operation of the bridge is controlled by a master switch located in the operator's cabin, and so thoroughly is the controlling mechanism interlocked that it is impossible to open or close the bridge without following a prescribed sequence of operations and allowing the time for each operation to be completed. From the June Popular Mechanics Magazine.
